Friday

THEME EXPLAINED:

Shaping our future: innovating systems to meet a changing reality

On the first day of the debate the 27th edition of HMUN, delegates finally tackled the theme of "Shaping our future: innovating systems to meet a changing reality" after long months of waiting. This carefully crafted theme invites participants to reflect on today's world, and to envision a future that is not simply a continuation of the present, but a positive evolution of it. At its heart, the theme is all about thinking ahead and being ready to adapt to the many challenges we face today. It recognizes that our world is always changing because of new technology, shifts in population, environmental issues, and how society works.

HMUN 2024 Chronicle

Shaping our future: innovating systems to meet a changing reality

Furthermore, the theme "Shaping our future: innovating systems to meet a changing reality" highlights how global issues are all connected and stresses the urgent need for working together. It understands that not one country or organization can solve these challenges alone and emphasizes the significance of countries cooperating and supporting each other.

As delegates discuss and share ideas, they are challenged to think of bold and innovative plans that can create a future where we are strong in the face of challenges, take care

of our planet, and enjoy prosperity together. Ultimately, this theme calls for united efforts to pave the way for a brighter, fairer, and more sustainable future for future generations.

Dear Reader of the HMUN 2024 chronicle,

We are welcoming you to the first chronicle of HMUN 2024! This year is the 27th annual conference of HMUN with 600 students all across the country and some even across the world. The conference was opened this year in the St. Bavo Church of Haarlem. We had great opening speeches and an amazing orchestra! It was a really good start of the day. You can find a recap of the opening ceremony and further down an article about the theme of this year. Also, we have added a location overview. And last but certainly not least, the photos of the day. Let's make this 27th conference an unforgettable experience! Enjoy the chronicle!

Kind regards,

Evy Bok and Kato Visser,
Heads of Press HMUN 2024

Recap of the opening ceremony

Opening speeches were delivered as we welcomed everyone to the Sint Bavo church. We were delighted to have the presence of Geoffrey van Leeuwen, the Minister of Foreign Trade and Development Cooperation, who delivered an inspiring address to the HMUN participants, reflecting on the transformative impact of the event. The mayor also graced us with their presence. Additionally, the two SG's from Stedelijk Gymnasium delivered memorable speeches. To conclude the ceremony, a band led all attendances back to the school building from the church, with staff members waving flags representing various countries along the way. It was a very colourful and happy experience.

Staff/StOff diner of last Thursday

Yesterday we had our lovely staff/stOff diner. The StOff arrived at 7 o'clock. We walked together to the Italian restaurant, and sat down at the 8 long tables. We talked about our experiences, and laughed the entire evening. Such an inspirational dinner. There was an amazing atmosphere in the air.
